Logicalis Hong Kong Limited Suites

Department Head

To whom it may concern,

I would like to recommend Leo Chor as a candidate for a position with your organization. In his position as Full-stack programmer, Leo was employed in our office from 2020 - 2021.

During his tenure with our company, Leo was responsible for the IoT project. Develop a REST API program for connecting all IoT devices, including Cisco, LoRaWan IoT Gateway device. He also designed the cloud architecture environment on Azure. Especially, IoT Hub, IoT Central, Logic App, Cosmo DB and Azure function. He applied cloud technology and made a number of recommendations for IoT project.

He also responds to Eugenio and web app development. Eugenio IoT project is developed by different regional teams as a management platform using multiple Azure cloud services. He responded to learn how to set up Eugenio showing that he is a quick learning programmer. He also provides valuable analysis on pros and cons.

He would add value to any company, and I recommend him for any endeavor he chooses to pursue. Please let me know if you have any other questions.

Yours sincerely,

Raymond Fong
